Option 2

To simplify the task, it is better to have two browsers open. In addition, documents should have already been entered into the UNPAN Content Server (formerly Intra.Doc/Xpedio).

At “Paper URL” field: Copy the URL address to this field. To do so:

1. Go to UNPAN Content Server.

3. Click on the title of the document.
4. Copy the URL address to the “Paper URL” filed.

NOTE: Although the paper will appear in the box underneath, it will not disappear from the “Paper”/“Paper URL” fields. In order to enter another paper you must delete the text in both boxes. To do so, merely highlight the text and press “delete” on your keyboard. If you have a background paper and want to delete it, highlight the text and click on the “Delete Paper” button.
