Resolutions

2007/38

Report of the Committee of Experts on Public Administration on its sixth session and dates, venue and provisional agenda for the seventh session of the Committee

The Economic and Social Council,

Recalling its resolutions 2005/55 of 21 October 2005, in particular its reaffirmation of the need to deepen the participatory processes of government to ensure citizens' engagement to achieve the internationally agreed development goals, including those contained in the United Nations Millennium Declaration,¹ and 2006/47 of 28 July 2006,

Concerned by the continuous marginalization of the poor and the disadvantaged in an era of a globalized world, which has led to decreasing trust in government by citizens,

Recognizing that the implementation of the United Nations development agenda and the achievement of the Millennium Development Goals can be greatly facilitated if citizens are involved in participatory mechanisms pertaining to the planning, budgeting, implementation, monitoring and accountability of socio-economic development policies and programmes and that these mechanisms of participatory governance help ensure efficiency and economic growth on the one hand and social justice on the other,

1. *Takes note* of the conclusions on this topic in the report of the Committee of Experts on Public Administration on its sixth session;²

2. *Encourages* Member States to reaffirm and deepen their use of participatory governance and citizen engagement in policy development, service delivery, and budgeting and public accountability with enabling mechanisms, including information and communications technology tools and other measures;

4. *Notes* the work undertaken by the Committee on compiling and, where needed, conceptually defining basic United Nations terminology in governance and public administration with a view to achieving more coherence in intergovernmental discussions;
