Global Knowledge Repository for
Electronic/Mobile Government

Haiyan Qian
Chief, Knowledge Management Branch
DPADM/UNDESA

Shanghai, China
27-28 May 2008

Demand:

Living in a digital world, all countries, especially developing countries need to build capacities and resources to improve public service through ICTs.

Problem:

There is no such a place on the web where you can easily access up-to-date, comprehensive, useful and value-added information.

Solution:

Online Repository:

- Comprehensive
- Cost-effective
- User-friendly
- Secure
- Easy to update
- Collaborative

Mission:

Promote worldwide knowledge management, sharing and collaboration on e/m-Government development for national and local governments to delivery better services to their citizens.

Objectives:

- Provide an Internet-based knowledge platform
- Provide easily accessible information
- Map innovative practices
- Present state-of-the-art research
- Promote multi-stakeholder partnerships for action
- Create a worldwide network of expertise

Partners:

Regional and national organizations & institutions in the field of ICT4DEV with common objective of sharing and promoting ICT based knowledge resources

Asia/the Pacific

- RCOCI
- MOPAS/ANA
- CAS
- UNU

Target Audience:

- Public sector
- Private sector
- Technical community
- Civil society

Performance Indicators:

- Traffic generated on UN EMGKR website
- Volume of knowledge resources added to EMGKR
- Number of new members/partners per year
- Sustainable network of partners contributing to the online facility

# Responsibilities of the Regional Partners:

- Develop and maintain the contents of the responsible region
- Monitor, assess and analyze KM process within the responsible region
- Conduct relevant consultation meetings (or workshops) with the respective regional partners of EMGKR
- Provide the progress reports of the respective region through UNDESA to the UNGA & ECOSOC

Responsibilities of the Coordinator (UNDESA)

- Develop and provide the IT support for EMGKR
- Develop and maintain contents at international level
- Monitor, assess and analyze overall KM process
- Lead and coordinate relevant consultation meetings (or workshops) in cooperation with the EMGKR partners
- Report to the UNGA & ECOSOC on the progress made of EMGKR

The UN E-Government Survey 2008: From E-Government to Connected Governance assesses the e-government readiness of the 192 Member States of the UN according to a quantitative composite index of e-readiness based on website assessment, telecommunication infrastructure, and human resource endowment. ICTs can help reinvent government in such a way that existing institutional arrangements can be restructured and new innovative arrangements can flourish, paving the way for a transformed government.
